

**FOR SOME KIDS,  
EVERY SCHOOL TERM  
STARTS FROM SCRATCH.**

Day care and school environments are the ideal breeding ground for threadworms. Yet while they're easy for kids to pick up, threadworms are not so easy to detect. COMBANTRIN®-1 products are an easy way to help ensure your kids are threadworm free. Available in tasty chocolate squares, COMBANTRIN®-1 can effectively treat threadworms in a single square, so it's easy to administer to your child. For more information see your local pharmacy or call us toll-free on 1800 778 640.
